Average outpatient sending rate per visit (RMB)	196	298	-34.2%
Total average outpatient spending per visit (RMB)	275	437	-37.1%

Notes:

- The above average inpatient sending rate is determined based on the Company's bills for services provided to patients, which may differ from the actual rates of the hospital and the Company's recorded rates for some medical services provided.
- The significant increases in outpatient visits and significant decrease in overall hospital rates are due to: i) a decrease in the number of lower-rate outpatient services through the Company's inpatient hospital; and ii) an increase in the number of dialysis services provided in the hospital.

The above operating and indicators are based on the Company's records and are not necessarily identical to the Company's audited financial statements. The operating and indicators may differ from those disclosed in the annual reports. The operating and indicators disclosed in the annual reports shall prevail if there is any discrepancy.

Shareholders and potential investors of the Company are reminded to rationally deal with any information not officially released by the Company, and shareholders and potential investors of the Company should exercise caution when dealing in the shares of the Company.
