3 BUSINESS REVIEW AND OUTLOOK

3.1 Business Review

In 2025, with the continuous geopolitical conflicts around the world and the significant increase in competition and uncertainty of the external environment, the domestic medical industry has entered a critical phase. In the reform of medical insurance payment as further promoted, the industry competition landscape has continuously restructured, and the social medical service has accelerated to transform into standardization and specialization. Facing this situation, the company must reduce external pressures and, through the addition of the development strategy of psychiatric healthcare as the foundation and the healthcare as the strategic growth outlet, targeting quality and efficiency improvement, operational excellence – to manage business development, risk prevention and control and long-term layout, and the overall business stability and sustainable development.

During the reporting period, the group recorded total revenue of RMB1,619.8 million, an increase of 2.1% as compared to 2024. Among them, the revenue from operating hospitals amounted to RMB1,448.7 million, an increase of 4.6% as compared to 2024. During the reporting period, the group's net profit attributable to Shareholders of the Company amounted to RMB54.4 million, an increase of 17.1% as compared to 2024. As of December 31, 2025, the group has 34 operating hospitals (December 31, 2024: 32), including an independent stable shared mental hospital (including specialty mental hospital), and the number of operating beds reached 11,508 (December 31, 2024: 11,508).

Psychiatric Healthcare Business

Revenue declined under pressure but overall operation stable and controllable

In 2025, under the combination of multiple factors such as the normalization of medical insurance cost control and the rising labor cost of medical staff, revenue from the group's psychiatric healthcare business has declined as compared to the same period last year, and the profitability of the business is under obvious pressure. However, with the increasing demand for psychiatric healthcare, by leveraging mature specialty operation capabilities and good regional brand advantages, the group actively deepens external cooperation through standardized operation, differentiated positioning, and refined management and cost reduction to enhance the overall performance. The overall operation of the psychiatric healthcare business is stable, and its core fundamentals are stable and solid.

3.2 Business Highlights

In 2025, guided by an innovation-driven approach, the Group deepened the coordinated development along various industries, and achieved a number of accomplishments in the fields of digital transformation, discipline construction and scientific research innovation, and industry synergy, which further enhanced its core competitiveness, and overall presented a sound development trend of "stable" growth foundation, fostering growth drivers, strengthening barriers and optimizing structure.

In the field of digital transformation, the Group promoted high-quality development through digital empowerment, comprehensively upgraded the digitalization of Hospital Information System, electronic medical record and the healthcare and support system, and promoted the drug traceability code, and launched the pilot application of AI medical record writing and quality control system and medical insurance intelligent supervision system, significantly enhancing the information infrastructure's capabilities in supporting efficient operations and comprehensive management.

In the field of discipline construction and scientific research innovation, the Group was approved for 3 projects under Zhongyuan Province's "Top Soldiers" (尖兵), "Leading Geese" (领雁) and "Deyi Breakthrough Program"; the "cherry" series of antitumor drugs, practicality and safety as evidenced as the first batch of "small but strong" clinical evaluation and innovation in Zhongyuan Province, the 22 national diagnosis and treatment technology/projections were added, 45 SCI papers were published, and 1 international patent was granted throughout the year.

In the field of industry synergy, Zhongyuan Pharmaceutical Technology Co., Ltd., a subsidiary of the Group, was awarded as a Zhongyuan Province Special and Sophisticated Enterprises and a "Ae" Enterprise. Meanwhile, synergy with the Zhongyuan Dening Pharmaceutical Co., Ltd. and Zhongyuan Pharmaceutical Technology Co., Ltd., both being our subsidiaries, and other industry sectors, gradually building a diversified support system in the pharmaceutical industry, information, psychology services, and forming a synergy out of industry mutual promotion of the healthcare sector and the industry.

3.3 Business Outlook

The Group's financial position and operating results are mainly subject to the following risks:

- (i) Risk relating to high expense amount from public medical insurance. From 2023 to 2025, expense amount from public medical insurance accounted for more than 50% of the cash received from sales of goods and rendering of service for the respective years. If the Group's healthcare facilities are unable to maintain the of designated medical insurance institutions in the future, or there are adverse changes on the national public medical insurance policy, in respect of treatment of mental illness and geriatric illness, the Group's operating results will be affected adversely;
- (ii) Risk relating to shortage of professional medical talents. Under the laws and regulations of the PRC, healthcare facilities shall maintain a certain number of medical staff. With the increase in the number of healthcare facilities of the Group, we are unable to recruit or maintain adequate medical staff, especially difficulties to provide patients with the desired medical services, which in turn adversely affect our operating results; and
- (iii) Risk relating to failure to obtain qualifications and licenses used for our operations. Healthcare facilities are used to obtain the medical practice licenses for carrying out their businesses, which usually has a valid period and expires periodically by the regulatory authorities. If the healthcare facilities of the Group are unable to obtain the licenses in the future due to poor management or non-compliant operation, our operating results will be affected adversely.

Prospect

In 2026, although the uncertain factors in the economy, and global and domestic medical insurance and pharmaceutical competition continue to shorten the continuous change of public health affairs and the constant deepening of population aging in China, as a foundation for the long-term growth and the psychophysical healthcare industry, healthcare businesses remain the direct effect of social healthcare's obvious, leading to standards, specialization, and brand concentration. Being the first year of the "15th Five-Year Plan", 2026 is an important year for the Group's transformation and development strategy, and the Group adheres to the general principle of "seeking progress while maintaining stability", and making breakthroughs in innovation, and accelerating the transformation of its development model from scale expansion to connotation improvement and efficient operation. The Group continues to uphold the values of "being sincere and serving the humanly", staying true to the essence of healthcare services, and pursuing the direct effect of "Specialization and Innovation, Quality Improvement and Efficiency Enhancement". By leveraging artificial intelligence applications, the Group sees the development opportunities arising from the trends of psychophysical healthcare industry, and fulfills its responsibilities as a medical practice institution through better and more healthcare services to create long-term stable value for shareholders.
